◀▶ 1.0 Introduction

Brand Story

Founded in October 2013 by Andreea Roxana Deac, Lexarox Accounts was born from a vision to assist European foreigners new to the UK—but not limited to them—in navigating the complexities of commercial activity and compliance with the country’s laws and regulations. Andreea aimed to create a company that inspired trust and fostered long-lasting client relationships.

Today, Lexarox Accounts stands as a testament to that dream. We pride ourselves on the deep connections we build with our clients, understanding their unique needs and tailoring our services to help them be tax-efficient. Our expertise goes beyond numbers; it’s about providing personalised, informed guidance that empowers businesses to thrive.

We recognise that every business is different, and our commitment to building lasting relationships ensures that our work is always highly informed and customised to meet your specific needs. At Lexarox Accounts, we don’t just offer accounting services—we offer a partnership built on trust, expertise, and a shared vision for your success.

1.1 Brand Story

Introduction

At Lexarox Accounts, we are more than just an accounting firm; we are a dedicated team of professionals with integrity as our cornerstone. We are committed to acting responsibly, treating everyone with the utmost respect, and adhering to the highest standards of professional ethics. The volume of transactions doesn’t measure our reputation but the trust and meaningful relationships we cultivate along the way.

Our expertise will help you be as tax efficient as possible. We know that every business is different. By building relationships, we ensure that all our work is highly informed and tailored to your needs.

Our tone of Voice

We're approachable

Our tone of voice is warm, approachable and inclusive. We never talk down to our clients or use jargon to create a barrier. Instead, we speak in a straightforward and relatable way. We value communications as a two-way street where both parties engage in a dialogue.

We're action-oriented

Being action-oriented, Lexarox Accounts communicates with a sense of purpose and direction. We demonstrate our expertise through our actions, not just our words. This makes our communications compelling, providing tangible proof of our capabilities.

We're confident

We are confident in delivering the right solutions for the right clients. We don't make empty promises or unrealistic claims. Instead, we always back up our assertions with evidence, giving clients confidence in our services.

1.2 Tone of Voice

Introduction

At Lexarox Accounts, our commitment to supporting clients is at the heart of everything we do. Our tone of voice embodies empathy and understanding, demonstrating that we genuinely care about our clients' goals and dreams. We never view our clients merely as customers; instead, we see them as partners on a shared journey towards success.

Our tone of voice reflects Lexarox Accounts' core values: inclusivity, action, expertise, confidence, and support. We pride ourselves on speaking like real people to real people, fostering a deep sense of connection and trust. This approach ensures that our clients feel valued, heard, and understood every step of the way.

By prioritising clear and compassionate communication, we create an environment where clients feel comfortable sharing their aspirations and challenges. This partnership allows us to provide tailored solutions that meet and exceed expectations. At Lexarox Accounts, we are dedicated to building enduring relationships that support our clients' long-term success.

◀▶ 2.0 Logo Design

Brand Identity

Primary logo

2.1 Primary Logo

Brand Identity

The inverted Lexarox Accounts full-colour logo serves as a unique and impactful emblem for our brand. This variation reverses the colour scheme, featuring the brand name in striking black text against a clean white background. This inversion distinguishes the logo and enhances its visibility, particularly when used on lighter backgrounds or in print materials.

By inverting the colours, the logo creates a strong, eye-catching visual effect that captures attention and reinforces brand recognition. The clean white background offers a sense of openness and transparency, aligning with our core values of clarity and honesty in our services. Meanwhile, the bold black text maintains the strength and professionalism that Lexarox Accounts is known for, ensuring that the logo remains authoritative and trustworthy.

This inverted logo is especially effective in various applications, from digital media to printed collateral, ensuring that the Lexarox Accounts brand stands out in any context. Whether it's on business cards, letterheads, websites, or advertising materials, the inverted logo adds a dynamic and versatile element to our visual identity, making it adaptable to different settings without losing its impact.

The thoughtful design of the inverted logo ensures that our brand message remains consistent and powerful, no matter where it is displayed. By leveraging this distinctive emblem, we continue to build a cohesive and recognisable brand presence that resonates with our clients and partners.

Inverted logo

LEXAROX
ACCOUNTS

2.1 Primary Logo

Brand Identity

The Lexarox Accounts full-colour logo is a distinctive visual representation of our brand, encapsulating its essence and identity. This logo variation features the brand name in crisp white text set against a solid black background. The high-contrast design ensures that the logo is easily recognisable and memorable, making a strong impression across various mediums and platforms.

The choice of colours in our logo is deliberate and meaningful. The black background symbolises the solidity, strength, and professionalism that Lexarox Accounts stands for. It is a foundation, highlighting our unwavering commitment to integrity and excellence. The white text, on the other hand, represents clarity, transparency, and the trust we strive to build with our clients. This striking contrast enhances readability and reinforces our brand's values and promise of reliable service.

Our logo is more than just a visual mark; it reflects our dedication to quality and our high standards in all our endeavours. Whether seen on digital screens, printed materials, or company merchandise, the Lexarox Accounts logo is a beacon of trust and professionalism, instantly connecting our audience to our brand's core mission and values.

By leveraging this distinctive visual identity, we ensure that Lexarox Accounts remain top-of-mind for our clients and stakeholders, fostering a sense of familiarity and confidence in our services.

Exclusion zone

2.2 Logo Clear Space

Brand Identity

The exclusion zone around the Lexarox Accounts logo is crucial for maintaining its visibility and impact. This designated clear space must be free of any other graphic elements, text, or images, ensuring that the logo stands out prominently and is not overshadowed by other visual components. Preserving this exclusion zone is essential for upholding the integrity and legibility of our brand identity across various applications.

To achieve optimal visibility, it's important to adhere to specific guidelines regarding the exclusion zone. The exclusion zone should be proportional to the height of the logo itself, typically measured as a minimum distance equivalent to half the height of the logo on all sides. This buffer zone prevents any surrounding elements from encroaching on the logo's space, thereby enhancing its clarity and impact.

Key Information

When it comes to digital platforms, such as websites and social media posts, following these general guidelines for key logo sizes is imperative:

Website logos

Header: Ensure the logo maintains a height of at least 50 pixels while respecting the exclusion zone.

Footer: The logo in the footer should have a minimum height of 40 pixels to ensure readability.

Social media posts

Profile pictures: For clarity, use a logo size that fits well within the platform's dimensions, typically around 180x180 pixels.

Cover photos: While cover photo dimensions vary, ensure the logo is prominent but respects the exclusion zone to avoid visual clutter.

Posts and ads: For shared content and advertisements, maintain a minimum logo size of 120 pixels in height to ensure it remains impactful.

2.2 Logo Clear Space

Brand Identity

By adhering to these guidelines, we ensure that the Lexarox Accounts logo remains visually distinct and retains its professional appearance across all mediums. Consistently applying these principles helps in reinforcing brand recognition and creating a cohesive visual identity that resonates with our audience.

Maintaining the exclusion zone not only protects the logo's integrity but also enhances its ability to communicate our brand's core values effectively, regardless of where it is displayed.

Logo misuse examples

2.3 Brand Misuse

Brand Identity

It is crucial to avoid misuse of the Lexarox Accounts logo. Misusing the logo can dilute its impact and confuse the Lexarox Accounts audience. The logo should appear the same across all platforms and mediums to maintain consistency. Any colour, proportion, or design changes will confuse the audience and weaken Lexarox Accounts' brand recognition. If the logo is misused, such as being stretched, squashed, recoloured, or modified in any other way, it will make it harder to recognise and connect with the Lexarox Accounts brand.

Brand Restrictions

- Do not apply any strokes to the logotype or logo mark
- Do not change or edit the logo in any way
- Do not change the orientation of the logo
- Do not add any additional colours to the brand palette or guidelines
- Do not distort the logo in any way
- Do not apply any gradients to the logo
- Do not change any proportions of the logo

◀▶ 3.0 Graphic Furniture

Brand Elements

Lexarox Marque

Favicon / App Icon

3.1 Marque

Brand Elements

The Lexarox Accounts logo is meticulously designed to embody our brand's core values and identity. Its distinctive features include its unique shape and vibrant colour scheme, creating an unmistakable visual impact.

The brand element is a six-sided mark with rounded corners. This geometric design fosters a sense of balance, stability, and inclusivity.

The use of Pure Cyan as the primary colour exudes trust, innovation, and clarity, making it the perfect foundation for our brand. The accent colours, Pure Magenta and Vivid Green complement the primary colour and introduce a dynamic and energetic vibe. This combination ensures that our logo stands out and resonates with our target audience.

The rounded corners soften the hexagon's geometric rigidity, adding a friendly and approachable character to the logo. The vibrant colour palette reflects our brand's commitment to creativity, energy, and forward-thinking vision.

◀▶ 5.0 Fonts & Weights

Typography Selection

Headline Typeface

Futura PT Bold

Futura PT Bold is utilised for its modern yet elegant appeal. Its thick strokes and boldness command attention, making it perfect for headlines and key messaging where impact is necessary.

AaBbCcDdEeFfGg
HhIiJjLlMmNnOo
PpQqRrSsTtVv
WwXxYyZz

Aa

5.1 Headline

Typography

Typography is a fundamental component of the Lexarox Accounts Brand Guidelines. It's through typography that our brand's tone of voice is visually expressed, creating a robust and distinctive personality that resonates with our audience.

Key Information

Typeface usage

- 'Title Case' only
- Headline and Subheader typeface
- Use 'Bold' & 'Medium' weights

Subheader & Body Copy Typeface

Futura PT Book

Futura PT Book brings a touch of sophistication to the mix. Its clean, balanced characteristics make it ideal for body copy or subheadings, providing excellent readability without compromising style.

AaBbCcDdEeFf

OoPpQqRrSsTt
VvWwXxYyZz

Aa

5.1 Secondary

Typography

The chosen fonts for Lexarox Accounts – Futura PT Bold, Futura PT Book, Futura PT Light and Futura PT Condensed – uniquely shape our brand's identity.

Key Information

Typeface usage

- body copy typeface
- Use 'Book' & 'Light' for body copy

Subheading Typeface

Futura PT Condensed Bold

Futura PT Condensed, as the name suggests, is a condensed version of Futura PT. This font is excellent for limited space, yet clarity and legibility are paramount. It's often used in captions or narrow columns.

AaBbCcDdEeFf
GgHhIiJjLlMmNn
OoPpQqRrSsTt
VvWwXxYyZz

Aa

5.2 Secondary

Typography

When used collectively, these fonts create a rich typographical landscape that reflects our brand's ethos. They add depth to the visual identity, creating a versatile and comprehensive typographic system that enables Lexarox Accounts to communicate effectively with our audience.

Key Information

Typeface usage

- Subheading typeface
- Use sparingly
- Use 'Bold' & 'Medium' weights

Back-up Subheader & Body Copy Typeface

Helvetica

Helvetica is a versatile and modern sans-serif typeface. Known for its geometric shapes and friendly appearance, it's used in various contexts, from body copy to navigation elements, ensuring consistency across different platforms.

AaBbCcDdEeFf
GgHhIiJjLlMmNn
OoPpQqRrSsTt
VvWwXxYyZz

Aa

5.2 Backup

Typography

A backup text, or secondary or support text, further clarifies the Lexarox Accounts brand's message, values, and offerings. It supplements the primary text or headline, providing additional context, depth, and meaning.

Key Information

Typeface usage

- Subheader & body copy typeface
- Back-up typeface
- Only use if Futura PT is unavailable

◀▶ 6.0 Imagery

Photograph Usage

6.1 Style

Imagery

Photographic imagery is a critical component of the Lexarox Accounts Brand Guidelines. It visually represents our brand's identity, emphasising its aesthetic appeal and core messaging. Lexarox Accounts can express our values and personality through carefully selected and curated images.

Close-ups: Close-up shot imagery should evoke emotions, tell stories, and connect deeply with the Lexarox Accounts audience.

Different angles/dynamic positions: Varying angles and dynamic positions add depth and dimension to the visual Lexarox Accounts brand narrative. They should create intrigue and interest, encouraging our audience to engage more with the image. This approach helps showcase the versatility and adaptability of our services and products.

6.1 Style

Imagery

Rich-in-colour photos: Vibrant, rich-in-colour photos should be used effectively to grab attention and evoke specific emotions. They add life and energy to the Lexarox Accounts brand visual identity, making us more engaging and memorable. This aligns with the Lexarox Accounts colour palette, enhancing brand consistency.

6.1 Style

Imagery

Maintaining consistency and trust is critical, as is the use of photography, the emotions they should provoke, and any ethical considerations. This enables the Lexarox Accounts brand to communicate our values and personality visually, creating a strong and distinctive identity that resonates with our audience.

Photography restrictions

- Don't use photo manipulations
- Do not use low quality photos
- Do not use photo combinations within the same image
- Do not use photos that are not relevant to the subject area
- Do not use staged or cringe worthy photos
- Do not use graphic or disaster based photos

6.2 Restrictions

Imagery

Lexarox Accounts has set certain restrictions on photographic imagery to maintain a consistent brand image. These guidelines ensure that all visual content aligns with our brand's identity and values. It's crucial to avoid clichéd metaphorical imagery, artificially coloured imagery, and images with special effects that could detract from our brand's authenticity.

Lexarox Accounts encourages the use of authentic images that reflect real-life situations and genuine emotions. The use of overly staged photos is strongly discouraged. All images should be high-resolution and professionally shot. Blurry, pixelated, or low-quality images are unacceptable as they can negatively impact our brand's perceived value.

All images should be relevant to the content they accompany. Irrelevant or misleading photos can confuse our audience and dilute the Lexarox Accounts brand message.

◀▶ **7.0** Collateral

Print Application

Front Design

Back Design

7.1 Business Cards

Print Collateral

The design and layout of the business card hold immense importance for the Lexarox Accounts brand. It's not just a small piece of paper with our contact details but a powerful marketing tool and a tangible representation of our brand's identity.

Incorporating the Lexarox Accounts on the card creates a consistent brand experience that is recognisable and easy to remember. This consistency enhances brand recognition and reinforces our brand identity whenever the card is handed out.

7.1 Business Cards

Print Collateral

The Lexarox Accounts business card forms part of our branding strategy. It is a convenient means of sharing contact information and significantly shapes our brand's image and reputation. Moreover, in this digital world, a physical business card carries more weight than a quick email or contact share on a smartphone. It provides a personal touch and leaves a lasting impression, making Lexarox Accounts stand out in a crowded marketplace.

Letterhead

7.2 Letterhead

Print Collateral

The design and layout of the Lexarox Accounts letterhead should include the company name, address, contact details, logo, and regulatory statement. It is a key element of the corporate brand identity and plays a significant role in how Lexarox Accounts are perceived.

The layout of the letterhead should be clean and easy to read, ensuring that the brand's information is easily accessible. It must also be consistent with our overall brand image and values to strengthen brand recognition.

Yellow line and 'M' showcases the document margin (14mm)

7.2 Letterhead

Print Collateral

The letterhead design should convey a sense of professionalism, reliability, and attention to detail. This creates a positive impression among potential clients and professional introducers, enhancing the credibility and trustworthiness of the Lexarox Accounts brand.

The design and layout of the letterhead are integral to the Lexarox Accounts branding strategy. They provide essential information about the company and contribute to shaping the brand's image and reputation.

Compliment Slip

Yellow line and 'M' showcases
the document margin (10mm)

7.3 Compliment Slip

Print Collateral

The design and layout of the Lexarox Accounts compliment slip should reinforce the brand image and showcase our professionalism. By incorporating the Lexarox Accounts brand identity, including colours, fonts, and logo, our compliment slip becomes an extension of our marketing materials. This helps in creating a cohesive and memorable brand experience across all touchpoints.

7.3 Compliment Slip

Print Collateral

The information provided on the Lexarox Accounts compliment slip is important to our clients in order for them to reach out to us.

Elements for inclusion:

- office location with full postal address
- switchboard telephone number
- email address
- website address
- regulatory statement

Lexarox Accounts Brand Guidelines, Print Application

Brochure

Yellow line and 'M' showcases the document margin (10mm)

7.4 Brochure

Print Collateral

The Lexarox Accounts brochure enables our audience to learn about our company and proposition and showcases how we deliver a unique experience. It reminds readers of our services and serves as a perfect introduction to new clients.

Accurately distributed, it will expand our visibility. It is also a great marketing tool to provide positive press about Lexarox Accounts and to create networking and new business opportunities. How the brochure is printed will impact the overall quality of the finished product. Litho printing should be used for the highest-quality print finish to give the brochure an opulent feel.

Outer brochure

Leave at least a 13mm margin around the outer edges of the outer brochure. Type placed too close to the edges looks less professional and will make the overall design look unbalanced. Ensure the logo is within $X = \text{Half of the 'Lexarox Accounts' brand logo}$.

When printing, a minimum stock weight of 350gsm to 400gsm (grams per square metre) should be used. The stock should be smooth, matte, and uncoated.

7.4 Brochure

Print Collateral

The inner brochure design is critical to set Lexarox Accounts apart from competitors. Each spread should be sophisticated, engaging and inspiring — using the very best aspects of photography, layout and design.

The layout requires a certain degree of design restraint to convey a sense of timelessness while maintaining its elegance and simplicity and adhering to the Lexarox Accounts brand standards.

Inner brochure

Leave at least a 13mm margin around the outer edges of the Lexarox Accounts inner brochure. Type placed too close to the edges looks less professional and will make the overall design unbalanced.

When printing, a minimum stock weight of between 170gsm and 200gsm (grams per square metre) should be used. The stock should be smooth, matte, and uncoated. How the inner brochure is printed will also impact the overall quality of the finished product. Litho printing should be used for the highest-quality print finish to give the inner pages an opulent feel.

7.5 A5 flyers

Print Collateral

The A5 Flyer artwork rules and margins require a 7.1mm margin around the outer edges. Type placed too close to the edges looks less professional and will make the overall design look unbalanced.

$1/2 X$ = Outer border for document and
 $2 \text{ times } X$ = Inner border for document.
 Ensure the logo is within X = Half of the
 'Lexarox Accounts' brand logo.

When printing, a minimum stock weight of 170gsm to 200gsm (grams per square metre) should be used. The stock should be smooth, matte, and uncoated. Litho printing should be used for the highest-quality print finish to give the A5 flyer an opulent feel.

The A5 Double-Sided Flyer artwork rules and margins require a 7.1mm margin around the outer edges. Type placed too close to the edges looks less professional and will make the overall design look unbalanced.

For the outer border, use $1/2 X$ = Outer border for the document and $2 \text{ times } X$ = Inner border for the document. Ensure the logo is within X = Half of the 'Lexarox Accounts' brand logo.

7.6 Half-fold

Print Collateral

The Half Fold document rules and margins require a 7.1mm margin around the outer edges. Type placed too close to the edges looks less professional and will make the overall design look unbalanced.

For the outer border, use $1/2 X = \text{Outer border for the document}$ and $2 \text{ times } X = \text{Inner border for the document}$. Ensure the logo is within $X = \text{Half of the 'Lexarox Accounts' brand logo}$.

When printing, a minimum stock weight of between 170gsm and 200gsm (grams per square metre) should be used. The stock should be smooth, matte, and uncoated. Litho printing should be used for the highest-quality print finish to give the Half Fold document an opulent feel.

7.7 Roller banner

Print Collateral

Lexarox Accounts roller banners can be used on many occasions to help communicate our business message, for example, in events where they help give visibility to our company stand and promote the commercial message we want to highlight.

Consider these elements when designing:

- before starting the design process set a goal objective
- position the logo bottom left
- resolution
- include a call to action
- choose imagery wisely
- use the space well
- choose the correct banner size

7.8 Exhibition stand

Print Collateral

Lexarox Accounts' exhibition stand provides a platform to promote our services to an audience that may have little or no knowledge of them. It also gives us an opportunity to meet existing and prospective clients, increase our brand awareness, close deals, and launch new products or services.

Consider these elements when designing:

- before starting the design process set a goal objective
- maximise space
- don't be text-heavy
- position the logo correctly
- resolution
- include a call to action
- choose imagery wisely
- choose the correct stand size
- consider how lighting will enhance the stand design
- consider how tech could showcase the Lexarox Accounts proposition

◀▶ **8.0 Assets**

Digital Application

Social Media

Instagram Post

Yellow line and 'M' showcases the document margin (85px)

8.1 Instagram

Digital Application

Instagram posts should be well-designed, thoughtful, and stand out. To create a clean and cohesive Instagram feed, the Lexarox Accounts strategic plan and brand guidelines should be followed. Each design needs to be cohesive and aesthetically pleasing.

Instagram general posts

- a simple display box area should be used to hold text and match styling

Instagram luxury posts

- text should be integrated into the background colour
- incorporate the logo into the design
- tagline incorporated as part of the luxury script font Futura PT Bold

Instagram enables Lexarox Accounts to increase brand awareness and introduce new products and services. It allows us to promote our brand in a professional, friendly, authentic way without hard-selling to our audience.

The platform enables us to increase website traffic and SEO rankings, generate leads, and reach out with our content marketing. Instagram is a great way to build rapport, trust, and credibility with our followers and show that there's a human side to our company. This means it also provides Lexarox Accounts with better audience insight.

8.1 Instagram

Digital Application

As part of the Lexarox Accounts social media marketing strategy, Instagram should provide us with specific, pertinent information about our followers and how our content is performing. This information should be used to improve our other social media marketing campaigns.

Instagram should also be used to monitor our competitors and see how they interact with their followers. This will enable us to find out how often they post, what they post, and how they engage with followers.

With Instagram ads, we can reach new prospective clients and extend our reach with customisable, trackable advertisements. Ads should target specific demographics, link to the Lexarox Accounts website and collect valuable user data that can help inform our other social media marketing campaigns.

8.2 Facebook

Digital Application

The Lexarox Accounts Facebook homepage layout should include a cover photo taken from our lifestyle and property photography library. Descriptions should also be included with links, highlighting important posts and consistent with our colour palettes.

Image size standards are important. If the incorrect size is used, the result will be awkward cropping or pixelated imagery. Keep to the recommended image sizes.

Facebook general rules/posts

Photography should be taken from our lifestyle and property photography library (profile image size: 170 x 170 pixels) — (cover photo image size: 820 x 462 pixels).

The design of each post should follow the Lexarox Accounts brand style guideline rules.

8.3 X (formerly Twitter)

Digital Application

Used as part of the Lexarox Accounts social media strategy X enables us to share information quickly and start conversations with our target audience. Make sure to use a tone that aligns with our brand voice and personality. The types of conversations and topics posted and the tone used in each post will help Lexarox Accounts attract an audience whose requirements align with our products and services.

Image size standards are important. If the incorrect size is used, the result will be awkward cropping or pixelated imagery. Keep to the recommended image sizes.

X general rules/posts

Photography should be taken from our lifestyle and property photography library (profile image size: 170 x 170 pixels) — (cover photo image size: 820 x 462 pixels).

The design of each post should follow the Facebook general rules/posts brand style guideline rules.
